Azure simple pipeline

Release 0.0.1

Alessandra Bilardi

Feb 22, 2022

CONTENTS:

1 Getting started **3**

1.1 Prerequisites 3

1.2 Installation 3

1.3 Change Log 3

1.4 License 3

2 Indices and tables **5**

This package contains the classes for deploying a Azure simple pipeline.

CHAPTER

ONE

GETTING STARTED

Azure simple pipeline package is implemented for deploying a Continuous Deployment or Delivery system (CD) by Azure services.

You can use this simple pipeline for deploying your personal solution in 2 environments: staging and production.

It is part of the educational repositories to learn how to write stardard code and common uses of the TDD, CI and CD.

1.1 Prerequisites

Coming soon.

1.2 Installation

Coming soon.

1.3 Change Log

See CHANGELOG.md for details.

1.4 License

This package is released under the MIT license. See LICENSE for details.
